Sir:

A Notice of Allowance for the above-identified application issued on April 2, 2007.

Enclosed with the Notice of Allowance was a notification from the Examiner indicating that a substitute Declaration and Power of Attorney was required for this application. Based on the comments made by the Examiner, it is believed that the Patent Office mistakenly believes that the present application only has four inventors, instead of six.

When this application was originally filed on February 25, 2004, the application papers were submitted without a Declaration and Power of Attorney. However, the Application Transmittal listed all six of the inventors. The Official Filing Receipt mailed on May 17, 2004 also listed all six inventors.

Because the application was filed without a Declaration, the Patent Office issued a Notice to File Missing Parts on May 17, 2004. Applicants filed a reply to the Notice to File Missing Parts on May 21, 2004, providing an executed Declaration and Power of Attorney. Enclosed herewith as **Exhibit A** is a copy of the Declaration and Power of Attorney submitted with the Reply to the Notice to File Missing Parts. This Declaration includes three pages, with two of the inventors being listed on the third page of the Declaration.

It appears that a handling error at the Patent Office resulted in the third page of the Declaration and Power of Attorney becoming lost. As a result, it appears that the Patent Office changed its records for this application, long after it was filed, to remove the two inventors listed on the last page of the Declaration.

In an Office Action dated December 12, 2006, the Examiner requested that the Applicants file a clearer copy of the Declaration and Power of Attorney. Applicants did so in a reply to the Office Action which was filed on February 12, 2007. The clearer copy of the Declaration enclosed with that Amendment included all three pages of the Declaration and Power of Attorney. As a result, the Examiner noticed the inconsistency between the Patent Office records (which listed four inventors) and the Declaration and Power of Attorney submitted with the Amendment (which lists all six inventors).

This application should have always listed six inventors. Applicants believe in good faith that they submitted all three pages of the Declaration and Power of Attorney in their Reply to the Notice to File Missing Parts. The copy of the Declaration in the Applicant's file included all three pages, and a copy of that document is now being submitted as Exhibit A.

Applicants respectfully request that the records for this application be updated to reflect all six inventors. Enclosed herewith, as **Exhibit B** is another clear copy of the Declaration and Power of Attorney which lists all six inventors.

If Patent Office personnel have any questions regarding this matter, they are invited to contact the undersigned at the telephone number listed below.

Please charge any shortage in fees due in connection with the filing of this, concurrent and future replies, including extension of time fees, to Deposit Account 16-0607 and please credit any excess fees to such deposit account.

Respectfully submitted,
KED & ASSOCIATES, LLP
